Ricky Zoom

Ricky Zoom is a British animated series produced by Entertainment One and Frog Box in collaboration with Maga Animation Studio. It was created by Alexander Bar. The series was first released on Youku on June 28, 2019, and in the US on September 2, 2019.

Plot

Little red rescue motorbike Ricky Zoom, along with his loyal and enthusiastic bike buddies Loop, Scootio and DJ, race around the sports track, try new stunts at the park, and zoom into adventures.

Why It Sucks

1. Creepy character designs. Ricky and his comrades have enormous eyes and mouths that dip right into the uncanny valley.
2. Generic characters. The characters are all bland and their only personality traits are being nice and excitable.
3. Cliche plots that have been done a million times before.
4. It is the equivalent of jingling keys in a baby's face, with its juvenile writing that doesn't appeal to a general audience and only to babies and toddlers.
5. Not really educational. No kid's gonna get their morals from this show, and this show has very toyetic overtones.
6. Very boring and has slow pacing.

Redeeming Qualities

1. Catchy, albeit somewhat forgettable theme song.
2. Good voice acting.
